## Customer Reviews

Definitely worth renting! This textbook is SO expensive and I am not sure why because it is a paperback. Nevertheless, I rented it from for a fraction of the price to purchase brand new. It was supposed to be a used rental, but mine was brand new and I was extremely pleased! I was actually reluctant to return it because I really liked the content of the textbook and thought it might come in handy even after my degree is complete. I can't say that about too many of my textbooks. I enjoyed the course as well.

The material in this book is grossly outdate. Updates consist of pop culture references. Most of the claims made in this book are supported by research done over 50 years ago. Using this book as an educational tool is socially irresponsible.

Needed this textbook for a class. Very informative but not something I would read for leisure. Similar to any other ECE textbook.

Not only did the renting price meet my expectations but everything I've learned thus far was very informative.

Too early to tell. I'm not sure a text book can ever be rated better than "It's okay"

Perfect! This is just what I needed! Arrived in short order and in great shape! Thank you!

The product is as good as it was posted and described by the site.

This book is exactly what I needed for school! thank you!
