The Legal And Regulatory Environment Of Business

Synopsis

Although the text retains its foundation on property law, new lead author, Marissa Pagnattaro, University of Georgia, and the entire authorship team, bring a fresh perspective emphasizing the importance of understanding laws and regulations that are fundamental foundations for business. Using court cases and examples in Sidebars that are relevant for business, we underscore how learning about the law is essential to understand how the law can be used for strategic advantage and how to develop sustainable business practices. This emphasis, along with the rich array of cases and examples, makes the text suited for both legal environment and business law classes. Also new to this edition, Smartbook[®], the first, and only, adaptive reading experience for your students powered by McGraw-Hill Learnsmart[®], the market-leading adaptive study resource. Smartbook is designed to change the way students read and learn by continually adapting highlighted content based on what a student knows and doesn't know. The end result? Students are more engaged with course content, can better prioritize their time, and come to class ready to participate.

Customer Reviews

One of the most clear and concise legal textbooks (or any kind of textbook, for that matter) that I have ever read. Highly recommended whether you need it for a course you are taking, are looking for a good text to brush up on your business law principles, or you are a professor looking for a good business law text for your students.

So far so good. I am renting the book and there is some highlighting, but honestly it is helpful highlighting.

Supposed to come with an access code, but didn't. I'm glad I paid \$300 for a recycled rental.

Great deal when your on a budget for school.

Its a textbook. Its what you need.
