HTML5 And CSS3, Illustrated Complete

Synopsis

Master the latest HTML5 and CSS3 skills to create exceptional web design with this practical, user-friendly book from the popular Illustrated Series. HTML5 AND CSS3 ILLUSTRATED COMPLETE, 2E addresses basic to advanced concepts and skills for developing dynamic web pages and websites using the most current versions of HTML5 and CSS3. Learn to create websites that incorporate forms, videos, JavaScript, cutting-edge CSS3, and more. Updates throughout this new edition introduce key principles of responsive design while integrating mobile design and testing. This edition provides the "nuts-and-bolts" for beginner and the flexibility to brush up on the basics and quickly move to more advanced topics for more experienced user. Each two-page spread focuses on a single skill, making information easy to follow and absorb.

Series: Illustrated

Paperback: 472 pages

Publisher: Course Technology; 2 edition (September 21, 2015)

Language: English

ISBN-10: 1305394046

ISBN-13: 978-1305394049

Product Dimensions: 8.4 x 0.7 x 10.7 inches

Shipping Weight: 2 pounds (View shipping rates and policies)

Average Customer Review: 4.1 out of 5 stars [See all reviews](#) (8 customer reviews)

Best Sellers Rank: #336,650 in Books (See Top 100 in Books) #248 in [Books > Computers & Technology > Software > Microsoft > Microsoft Office](#) #401 in [Books > Textbooks > Computer Science > Graphics & Visualization](#) #562 in [Books > Computers & Technology > Web Development & Design > Web Design](#)

Customer Reviews

Not a BAD book, but somewhat hard to follow when trying to look up specific properties. In general, it tends to avoid lists of possible properties in favor of highlighting a few and lightly talking about the rest in the text. A decent all round basic introduction, but not very usable as a reference work in my opinion... If you continue in this path, you probably won't keep the book around for long. Interestingly, it includes a very short chapter on JavaScript... Though it's more a very tiny primer and indication that more can be learned than anything else. That's not really bad for this kind of book though, because JavaScript can fill books all its own, and if you don't mention it, a new

student may never know to look.

Got this for a class, but I am not finding the information I need to access the online data I need for the class. I bought it new, and have no access code.

This book and it's directions are hard to follow sometimes.

Needed for college course. So far so good.
