## Customer Reviews

It arrived fast and the color blue is outstanding, making visibility very simple. They include over 100

round stickers that can be used to cover the holes of previous target shots or additional specific areas to shoot at for precision.

A comprehensive step-by-step user guide that is easy to understand. This was bought for my grandfather who had little knowledge about computer and setting it up was not easier for him. I gifted him this guide so he can now use this self-guide and have things resolved.

Love the Fire Stick as much as i like Prime, use them both almost everyday, anybody that wants to see tons of movies and old tv shows it is great.

I was looking for a "How to" guide. This isn't it. Glad that I have Prime so that I didn't waste \$3.

Save your money (thank God it was only a couple bucks or I'd feel totally scammed, but still ...)  
[Here says I must add one more word, so here goes: useless.]
