Great source for information on gun values. Have purchased these books for years and always enjoyed using them. If you want information on your gun values this is the resource for you. Will continue to purchase this product.

My husband uses this book all the time to price guns. This edition is as thorough and easy to use as the past edition.

Only one of the guns I was looking up was not in the book. Not bad for the amount of guns I was tasked with appraising.

Listed values are way below the real world. Must be from the west coast! Gun values are lower there

Very informative it was well illustrated and will be quite useful for checking gun prices.

Just exactly what I needed since my old copy was the 16th edition.

Been buying these for years...great, useful book...

Husband loves this book. It's his gun bible.
