The Complete Guide To Gunsmithing: Gun Care And Repair

Synopsis

The Most Comprehensive Gunsmithing Guide of All Time. Written by one of the most prolific firearms experts of all time, The Complete Guide to Gunsmithing is a highly detailed and essential reference for the gun enthusiast and gunsmith alike. At nearly 500 pages, Chapel covers everything from the use of proper tools to how to get a gunsmithing job, and everything in between. In more than forty chapters of exceptionally clear prose, the book answers every question a collector, soldier, or home defender could have on topics such as: • Drawings and Blueprints • Stock Design • Checkering and Carving • Stock Repairs and Alterations • Etching and Engraving • And many more Not only is the book an incredible resource for gun owners and gunsmiths, it's also a wonderful look at the world of firearms in the first half the twentieth century. Published just over seventy years ago, the book--and revised by the author two decades later • The Complete Guide to Gunsmithing is a fascinating look at how the nature of firearms has changed. With a thoughtful introductory note by renowned outdoorsman Dr. Jim Casada and eighty-five meticulous illustrations, this is the definitive edition of an enduring and authoritative classic. Skyhorse Publishing is proud to publish a broad range of books for hunters and firearms enthusiasts. We publish books about shotguns, rifles, handguns, target shooting, gun collecting, self-defense, archery, ammunition, knives, gunsmithing, gun repair, and wilderness survival. We publish books on deer hunting, big game hunting, small game hunting, wing shooting, turkey hunting, deer stands, duck blinds, bowhunting, wing shooting, hunting dogs, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.

Customer Reviews

I enjoy reading from the masters. Some of the instruction can be done easier today with current tools available. But most of the instruction is very relevant today. And gives a sense of where some of these tools/procedures for gunsmiths came from. You might even find a better way to work with firearms than spend every cent you make on tools you may not need.

Quite dated, but useful, especially if you are just starting.

disappointed, Just ok it covers the basics but seems like something they would teach you in the 50's not very up to date

No up to date info

If you want to learn gunsmithing; don't get this book. If you want to know how they did it 75 years ago, get it.

Info is a little outdated. But a good read none the less

Very detailed information

Nice book
