I read it completely in about ten minutes, then went back and re-read the description, and read the book again to make sure I hadn't missed something. I had to wonder if this is the same book. Everything is sketched out in very brief, broad terms, without enough detail to enable anyone to start selling with any confidence. For example, he says, on page 26: "Learn about your tax liabilities for this income and keep good records." Kind of obvious advice about an important but potentially complex topic, but you're left to search for the information somewhere else. It could have been expanded into multiple paragraphs, or even a major section in a chapter. The bottom line, IMO, is that you should probably just buy one or two more informative books before you considering selling.

Wow! I have been wanting to start an Ebay online business for a while, so this book was much needed. Step by step indispensable guide and also interest tips about retail flipping, essential research, product ideas and the importance of being organised. I have no excuse not to get started on Ebay now!

This book contains a wealth of information on the different, and honestly very easy, ways to sell on Ebay â " all the important steps, details, niches and tricks you must be familiar with, if you want to earn money from home or simply get rid of your clutter. The author is an experienced internet marketer and clearly has a of of personal experience so the book is straight to the point and very informative.

A brochure at best. For the person who knows absolutely nothing and has no friends selling on ebay they could ask. This booklet is overpriced. The name is deceptive to the inexperienced ... you can only make the kind of money promised in the title with the right inventory, product savvy, seed money to invest and time to spend doing it. This teensy book does not provide all of that.

Ebay is a great way to earn some cash from the stuff you don't use anymore. This guide will show you how to take someone's trash and turn it into someone else's treasure! I highly recommend this to anyone looking to supplement their income.

This book is short. Has a few good ideas for the eBay novice but, doesn't deliver what the title offers. It doesn't explain directly how to make thae amount the cover says. I have worked eBay for years and was looking for tips to do better. Not found here. Assuming the title is just to draw in book

buyers.

There is not enough valuable information in this book. It was very disappointing. The title is misleading and only 27 pages. You won't learn how to make money on eBay by reading this book!

It's a great book for a basic intro, and yes...it is POSSIBLE to make this kind of money but I would argue HIGHLY improbable. Enjoy it for what it is, but don't quit your day job.
