Awesome conversation piece. I purchased this as a gift for someone who loves the Tinder Nightmares Instagram page. The book itself is super fun and filled with hilarious "nightmare" conversations. The book itself was slightly beat up when it arrived but I didn't have time to exchange it. The cover was dusty and had markings on it. Surprisingly, this is the first book I've ever received in this condition when buying a new book from .

If you follow the instagram page, then you will love this book. It's hilarious and just an overall fun read at the end of the work day. Highly recommend from anyone with a sense of humor and anyone who has used tinder. It's amazing.

I bought this as a gift for my friend. The book is funny and definitely what we were expecting. However, I was VERY unhappy when I opened the package and saw marks on the front cover. It was especially disappointing since it was a gift for someone else. I'm assuming the marks are from glue or something similar. Luckily they aren't too bad, but definitely noticeable. Anyway, if you're looking for a funny read that's guaranteed to make you laugh, this is a good purchase.

I bought this as a gift for a friend of mine that met her significant other on Tinder. I included a simple message of "glad this wasn't how your experience turned out!" She loved it and we spent the next hour just going through these terrible and hilarious stories.

After following the Tinder Nightmares Instagram for months, I jumped at the chance to buy the book on presale! It was a Christmas gift for a cousin who loves this type of humor. He loved it, so it was definitely a successful purchase!

It was ok, a few funny ones. thought it would be better. I guess it's worth the \$11.. I read it in about 40min..

I got this for my friend's birthday and couldn't help but read some of it. I love the layout and minimalistic design and the content is hilarious. I only wish that there would have been more conversations between gay or lesbian users, because it seems to be predominately male to female conversations. Which are still funny, but it would be cool to see somewhat of a balance.

It's kinda funny. Parts of it made me laugh. It's unreal what people will say these days. But there are no short stories on actual tinder nightmares. It's just full of random messages people have sent. It doesn't follow them. Just one message each.
