# Daily Fantasy Baseball: From Beginner To Expert: Keys To Winning In Daily Leagues

## Synopsis

You may have played daily fantasy football or basketball, but daily fantasy baseball is a different animal all together. This books provides all the information you need to start playing including lineup creation strategies, game selection strategies, game types and much more for the beginner. Then it moves on to provide more in-depth information including match-up research, utilization of Vegas lines and odds, team creation theories and answers many questions from the hobby player to the expert level players.If you play or plan on playing daily fantasy baseball, then this book will be an invaluable resource to aid in you becoming a more consistent winner. Baseball has its own set of variables which are not found in other sports so having an in-depth guide to the in's and out's specific to MLB will save you time, headaches, and most importantly Money!This book, published by TheDailyRoto.com, is written by Chris Reilly who is the best selling author of "Daily Fantasy Strategies: Football Edition" and "Daily Fantasy Basketball: The Guide to Winning Consistently." Chris is the lead journalist and co-founder The Daily Roto. "Daily Fantasy Baseball: From Beginner to Expert" will help you get started the right way in playing DFS baseball if you are a beginner and is advanced enough to help you win more consistently if you are already a seasoned DFS player.

# Customer Reviews

This book is decent for some of the basics of DFS like the explanations of the differences between cash games and GPPs, but there were a lot of strategy recommendations that seemed a little fishy to me. The author seemed to take a contrary view on a lot of the prevailing wisdom that's out there. For example, he suggests putting a lot of stock in BvP (batter vs pitcher) stats and jumping on players when they've been hot over the past week, where everything else I've read has suggested the exact opposite. This would be perfectly valid if he backed these views up with good reasons for making these decisions, but it seems like it's mostly based on gut feelings. There is definitely some good stuff in this book as well, but by the time I reached the end I was having trouble separating the wheat from the chaff. There are a lot of resources out there for beginner DFS players that I would suggest over this book.

The kindle is one of if not the best reader.i have three books so far and i am looking for another for my studies and my hobbies.THANK YOU SO VERY MUCH FOR THIS BIT OF TECH POWER ANTHONY PALUMBO

I've been playing for the past year or so and found many ways to adjust how I was selecting my team. I found book really helpful.

Great for the beginner dfs baseball player. Good topics discussed, I would recommend for those wanting to try dfs baseball.

Very informative especially for the beginner. I really enjoyed the read. I'm actually winning NOW!! Thanks Chris
