This is a very basic and down to earth book which, to me makes it a very good book. All and all it's about how the author used the law of attraction (which I didn't believe in until I read this book) to win the lottery. Her stories of dreaming about numbers and winning are absolutely believable. My mom

dreams of numbers too and wins. She called me at work and told me to play 149 on the PA pick 3 for her. I humored her and spent the \$2 to play and a couple days later asked mom if she'd won. Her reply? Yes. I asked where she'd gotten the number and she said from a dream. After reading this book I kick myself for not putting \$20 on the number my mom told me to play. I've always been into the lottery but one thing I've learned from this author is to be consistent and that's the one thing I've lacked. This is one woman's story and she's an average woman. It's not over the top and these are the things that make it believable to me. She's telling her story, not trying to sell as many books as she can.

This is a great read and gets the mind to thinking more about playing the lottery. I've actually had about two vivid dreams of winning, but did not act upon it. Makes me wonder what would have happened if I did. I will definitely apply the steps given when playing the lottery. Thanks for sharing. Would buy books from this author again.

I was kinda letdown when she talked about dreaming the numbers because that hasn't worked out for me but she got me back by making the dreaming more structured with affirmations, strategies & prayers. Made me WANT to dream again.

Great read...power of positivity and I know it will work. Easy to read and follow...just follow the instructions and watch the money roll in !! Just like she says !! She did it I will too !

Enlightening and exciting. Good read, and some awesome insight on the power of a working mind. Look forward to more of her stuff!
