This is not an ordinary slow cooker cookbook, it contains information that a beginner should know. It does not require extraordinary cooking skills to cook using a Crock Pot. All you need is to learn the basics, thatâ™s how simple and fun it really is. These days, people are having a hard time squeezing time for their family, recreation and cooking. Because of the wider food choices that we have today, cooking is the last thing that people will prioritize. Processed food and ready cooked meals are easily available even in a small store. However, if you want to live a healthy lifestyle, those types of foods will not help you at all. Having a healthy lifestyle means eating healthy at the right time. Skipping meals is bad for your body. Thatâ™s a habit you should avoid if you really want to have a healthy, happy, and long life.The Crock Pot recipes included in this book offer you what you need the most â€“ delicious and nutritious meals. When using a Crock Pot, your ingredients are cooked exactly the way you want it. Whatâ™s more is that you donâ™t have to keep an eye on your slow cooker to make sure everything gets cooked properly.The Crock Pot recipes included in this book can make your life easier and healthier. It outlines recipes that will make your meals interesting. We have included stews, soups, beverages, and even desserts! This book also provides information to help you choose a slow cooker that suits your particular needs. Cooking meals is made simpler with a Crock Pot; giving you more time to spend with your family, your hobbies, and friends. Download your copy today! Customer Reviews

I am 73 years old. I know how to cook. Or thought I did, right up to the present. Now I am not able to stand at the stove. For the last year or so, my nephew and I, existed on TV dinners and other microwavables. Recently, I realized that I missed cooking. So I decided to get a crock pot. I quickly discovered that a whole new way to think about cooking would be necessary. So I purchased this book. The tips and procedures she includes are helpful, but I never felt she was talking down to me. Her recipes are easy to understand, but complicated enough to be great as written and also will be easy to adapt in order to reproduce personal favourites. I would recommend this book to anyone new to slow cooking, regardless of their level of cooking expertise.

Has good recipes. I think its simple enough for a beginner. Good book and well written. I was able to open it on my mobile phone so its compatible with mobile devices. Some books look terrible on mobile apps.

Tasty and easily prepared. Excellent for beginners learning how to cook with a slow cooker.

Crock pot cooking is simply easy, especially if you have some extra help. This book was a life saver! Had to find a good cook book for healthy reasons. This book contains a ton of ingredients, and very easy to follow. My favorite from this book is the bacon cheeseburger dip. BACON!! often get lazy in the kitchen, and only recently did I find that using a slow cooker was a man's best friend.

Not a great book. A bunch of low use information on Slow Cookers and few useful recipes.

Wow, didn't realize that there was so many different recipes for a crock pot.

Love new recipe ideas - this book has tons!
