# A Walk Together: Our Journey Through Liver Transplant

## Synopsis

Paula presents a patient's point of view to the liver transplant experience, for nurses and other caregivers to understand what is happening in the patient's mind and body. Husband and patient advocate Mike, details the events as they occur, and interprets Paula's physical and emotional changes as the healing progresses. Paula tells her story of living with the Hepatitis C virus, acquired as a child, so others with the disease may find comfort in knowing they are not alone, and not be frightened by some health issues that may occur. Their journey together is shared with love and a quirky sense of humor.

## Customer Reviews

I loved this book!!!!!! I like how it tells both sides from what he was feeling (the husband), and what she was feeling as the patient. It makes you really feel and understand what she was going through and it make you think how much pain she must have been through. I actually know that husband that wrote this book, it's amazing to know what all they had to go through together and, in the end,â ¢ they made it out stronger than ever before! Highly recommend this book, it an amazing read!
