I give it five stars because it wasn't bad, it just didn't give me information that I didn't already know. But, that's not the authors problem, He gave useful information, I just already started collecting data before I read the book. I gave it 5 stars because if I didn't know the stuff already it would have been very helpful.

One of the great ways in getting that extra cash is described in this book. It summarizes in detail how uploading a video to YouTube can earn you some money. It's a thorough guide in monetizing your YouTube videos.
