Customer Reviews

If you have never heard of a mug cake you are in for a nice surprise. They are a wonderful solution for dieters that crave a dessert but don't want a cake hanging around to encourage bad habits. This book includes quite a few helpful hints to make the perfect mug cake. There are some really great paleo recipes for the mug cakes. You don't even have to be on a paleo diet to enjoy these. The carrot cake is my favorite but peanut butter is a pretty close second. There is a chapter on decorating your muffins or cakes. There are some really nice ideas and some recipes for icings. I would have liked to have the calories and carbs list on each recipe also but since the ingredients are all listed it's not too hard to figure them out. Overall this is a nice collection of mug cake recipes. This was a free kindle book. Sometimes you get what you pay for and sometimes you make out like a bandit. This book is a bandit!

I am a huge fan of desserts. But I don't enjoy making them myself because of the time and effort. Another downside is traditional recipes call for large batches and most of it gets wasted. I really liked the idea of mug cakes. They seemed good enough for single serving so I can enjoy a new variety everyday and the recipes given were also diet friendly. I have tried the coconut flour chocolate mug cake and chocolate hazelnut as I love chocolate. They were moist and tasted really good. The baking tips also came in handy.

Great recipes. I just wish carbs and calorie count was listed for every recipe.

Easy recipes, book is easy to follow
