## Customer Reviews

CROCKPOT DUMP MEALS: Delicious Dump Meals, Dump Dinners Recipes For Busy People (crock pot dump meals, crockpot dump dinners, dump dinners) This book is exactly what it says it is... a cook book. There isn't a bunch to read, just a bunch of recipes. All of which are incredibly simple to follow and throw in the crock pot before you leave for work in the morning. Yes, a few of them ask that you brown the meat in a pot on the stove before you throw it in the crock pot or shred the meat when you take it out, but I hardly think that constitutes any major effort on the cook's part. There is also a wide variety of different styles of food here from American to Tex Mex to Asian. Its easy to end up eating pot roast or pulled pork every night if you use a crock pot so its very nice to have some variety. The ingredients called for are all easy to find and a readily available at any store. They may not always be the healthiest of ingredients, but this book is designed to make cooking quick, easy and convenient. Chopping vegetables and preparing your own sauces would pretty much contradict that. Basically, if you want to make it more healthy, you can, just skip the canned and frozen ingredients and buy them fresh. You can also substitute ground turkey in the recipes that call for beef or even tofu or seitan if you want a vegetarian version. There is a lot you can do with these recipes or you can simply follow them as they are written and have dinner set to cook in five minutes. I liked this book, it was quick to read and was exactly what it promised to be- a book full of simple, quick to prepare crock pot recipes. Although I received this product at a discount in exchange for my honest and unbiased review, I can assure you that in no way affected my rating of this item.
