## Customer Reviews

its an amazing book. Sling TV is basically an application for android mobile phones or iphone. its an amazing new invention by this people can watch tv shows or programs anywhere every time but on thing is necessary for this is internet which is easily available now a days. In short this book is awesome and have every thing in it about sling tv

Sling TV is new thing in market and everyone is not have full knowledge of it in such case something is need to get full knowledge about it and this book can be the source of this information. All the given information about sling TV in this book is well presented to read easily.

This book is on the application, A very good and top grossing application now a days , Sling TV is basically an application for android mobile phones or iphone. its an amazing new invention by this people can watch tv shows or programs anywhere .Such an amazing book about features of this application . Just loved it .

While this book talks about Sling Tv, it is extremely repetitive and in only the most basic way does it function as a manual. I learned nothing about how to make the app work for you, how to access different channels or on demand programming. Not worth the 3 bucks.

the TV is the great invention of the 20th century. The sling tv is new invention in tv and this book is all about of sling tv. It is also beginners guide because everyone need to know everything of it. This book have much tips and material information. Before buying or after buying the sling tv the person should read this
