Customer Reviews

some of the recipes are missing instructions. So many of them were for the bread machine too - that was not in the title, had it been, I would not have bought this book, as I do not have a machine. If she had included none machine instructions that would have been fine

I'm a novice to using a Bread Machine and wanted to build a library of recipes and information. I like this book and will be trying a number of the recipes.

A pretty good Cookbook!
