## Customer Reviews

So many yummy recipes! Before reading this book I had no idea you could do more than just use lemons, I never would have thought of using herbs in my water either! Besides all the great recipes, she gives great information on the how and why to infuse water and all the health benefits it provides. Really a great book!

Let's face it we all need to live a healthier lifestyle if we want to live a long life. Water is the building block of life and the most important thing we put in our bodies but it gets kind of boring. The author gives us lots of great information and tons of yummy recipes to help us enjoy drinking water. This is a great method of not only being able to drink more water but also gain the health benefits of the fruit you infuse it with. This book is well written and contains lots of great information. I highly recommend it for anyone and everyone.

I picked up this book because I am a big believer in cutting out sodas, a proponent of kidney health, and overall well-being. The Author provides a long list of excellent fruit infused water recipes that will work for any palate. The Blueberry pineapple is my favorite and I've already bought the fruit to try some of the rest.

A great little book, I want to make every one, also a good price

Lots of good recipes and ideas. The recipes are simple and easy to follow. Good overall advice for keeping an eye on dehydration symptoms.

Looks like quick healthy infusions to make.

The recipes are tasting pretty Good.
