Customer Reviews

It's awful, it's just a list of numbers. Called the master list, that contains all the boxed possible

numbers. 220 numbers. You magically have to pick the winning number from. No instruction on how to pick this number. Big waste of money.

The book just list numbers in boxes with no explanation. I wouldn't recommend this book. Try a pick 3 or pick 4 wheeling system on Google.

I really think the writer have to kiss a lot of butt.
