50 Weeks Of STEM Labs (50 STEM Labs) (Volume 6)

Synopsis

FROM THE CREATOR OF 50 STEM LABS: 50 Weeks of STEM Labs is a set of weekly plans focusing on a theme, such as a type of project or a specific material. Each week features 5 quick projects to do with that theme. This is enough projects for a whole school year and more! You can even spend more time on projects that require more learning and exploration. Included are 250 STEM projects in 50 fun themes. Each theme is based on a concept or material to be used, like: *Pasta Noodles, Tape, Glue, Cups, Paperclips, or Eggs *Recycling Projects, Airplanes, or Musical Instruments

Customer Reviews

This is a fantastic resource to use as a new STEM teacher . The activities are simple to explain and set up with a minimum of teacher cash outlay. I have used the tower building activity with teachers and students ... They were totally engaged and collaborated very well.

There are some interesting activities in here, however, many are very similar. In addition they are not vary challenging or in depth. They are more just fun builds

Too much repetition of the same concept.
