The secrets a woman needs for a man to notice her and make a man to fall in love with her are also revealed here.

A friend of mine recommend this book to me hoping that it will help me find a man. Although the book is full with the same advice that is usually in Cosmo (but at a much lower price), I found it interesting that the author would debunk such stereotypes like Men are from Mars; the author used some scientific evidence in this book like how everything a man does is unconsciously based on

biology and societal concepts. This is for anyone who feel they need romantic help with men.

Interesting to come across this book. I was actually amazed on how this book was crafted for its readers as it really captured important psychological means in the aspect of love. In the course of reading ti you would find out that the advises are very practical and logical.I am trying this to make a man fall in love with me but actually make him fall in love with me even more. And the sweet gestures i had incorporated actually worked and the romantic aspect of our relationship had flourished even more.Very basic that we tend to overlook, this book is reminding us that pursuing some things can be rewarding if also incorporated with strategies. I love it!

This book was awesome! It helped me figure out what to look for, what to consider and most importantly-how a man is going to perceive me and how utilize that perception! I was enthralled by the book and I will definitely recommend it to anyone who is looking for advice or simply information. This book left me feeling confident and educated. Five stars from me!

This book is a unique look into relationships and dating in todayâ™s world. The author takes the time to debunk some of the myths and stereotypes surrounding relationships and men. This book is good not only for single women but for married women who want to make their man fall in love with them over and over again. She gives some good tips on how to achieve a healthy, loving relationship with your man. I will be recommending this book to all my single lady friends and to a few of my married friends too!
