Getting Started With Geese (Getting Started With... Book 4)

Synopsis

Getting Started with Geese. Geese have a terrible reputation and I for one think it's about time this strange prejudice ended. Geese make fantastic garden pets as they will happily mow your lawn for you and in return keep you supplied with huge tasty eggs. They are trusting and tame, gentle and easy to live with, and they will even let you know if there are strangers on your land. They are certainly not the white-feathered monsters of myth! I think it's about time geese made a come-back and this book is here to help you get started with your new birds. Chapters include: • Feeding • Breeding • Housing • Keeping geese with other species • Buying • Health care... In short, everything you need to know before you take the plunge in to the wonderful and addictive world of geese.

I Loved this book! I had many questions and fears about being a new goose parent. After I read "Getting Started with Geese" By Lauren Berry, I realized my love for these precious birds, and her book of priceless knowledge, gave me a renewed confidence I can be a great goose parent! My "Hahn" & "Layah" geese are 4 months old now, they are my treasures as much as the rest of my

sweet pets. I have even taught my "Hahn" to give me goose kisses, "Layah" just wants to talk about it! LOL
