Customer Reviews

During the last 4 years I have spent most of my time playing poker cash games and making money. This book describes exactly where a lot of my profits come from. In every very profitable table I sit to play poker there are always players repeating all the time the mistakes described on this book. Those big leaks are very common to most recreational players. And there are also a lot of wannabe "pros" who have some of those leaks (they are profitable because they play against worst opponents) The good news are that most of those players will never read this book (and they will never look for any advise like this) so I can continue making a good and very easy monthly income from poker cash gamesat least for one more decade. If you have some of those leaks and you like to continue "donating" a lot of money to other players at each poker game you are playing, then

don't buy this book. Thank you very much for doing the mistakes described on the book and providing me a very easy , good income all those years! I really appreciate it! But if you want to stop spewing your money then buy this book and stop doing those 10 mistakes they describe there. If after reading this book you decide to stop doing these mistakes it is for your own benefit. This book is a MUST HAVE for every recreational player likes to play poker cash games on the casino , or to play home games with friends ...with a fast read you avoid making the most common mistakes and you increase your winning rate a lot (or reduce your loses a lot) for the rest of your life. I know also many wannabe "pros" repeating a lot of those mistakes all the time. The book is a must have for them also.
