Customer Reviews

Written from an "in the trenches" perspective. Not only is this information tremendously helpful for certifying, it is valuable for anyone wanting to understand Wireless Networking in an environment

that is current and relative!

This book has everything you need and more. Extremely confident in taking the exam from the material I've learned. Highly recommended for those looking to acquire their CWNA cert.

This is very well written book, and I highly recommend it for people entering the WLAN profession, or for experienced WLAN Pros looking to get certified.

This book answered most all of my questions without further research. Offers great explanations

This is the book that let you pass the exam with very easy way. Do not miss it.

Must be considered as a mandatory book for professionals in the wifi bussiness

Mandatory, if you want to do some administration of wi-fi networks
