Customer Reviews

The description of this book is really only a hodgepodge of vaguely related articles with advice by Brad Jones on how to make money in online nonfiction publishing, effective note taking, and how to develop new business ideas. While the first chapter is devoted to the art and craft of writing fiction most of the rest is related to other stuff. Don't waste your time or money on this book.

Nothing new, 30 tips are just a compilation of well-known and common sense advice â œwhat to doâ • without any trace of â œhow.â • It has terrible formatting. On Kindle, it has at least 3 spaces between lines. It is totally unreadable with 5-6 lines of text per page. I looked through â œtipsâ • and stopped reading. May be there are 16 free books inside, but to read this poorly formatted book is a pain in a neck. It is an absolute waste of money.

I looked through your "Book" and quite frankly I'm unimpressed! This is nothing more than another guru blowing smoke at us. Really who do they think we are. This book is not worth your time or effort so keep looking.

Total waste of time when so much good information is available. Poorly formatted and simply a regurgitation of what looks like blog information. The 'author' claim to make six figures selling is info

'on-line'. If so, he does it by fleecing sheep with products such as this.

I downloaded this book as part of my Kindle Unlimited. Had I paid for this book, I would have returned it without reading to the end. This book contains a few (very few) basic tips, which is just fine if you've never written. However, I didn't expect much when I read the word template in the title. There is NO template for writing fiction EVER. There is no format that allows a want-to-be writer to fill in the blanks to complete a book. Writing is work and the finished product is just part of the reward.
