## Customer Reviews

As always, Dexter wrote a good book! This one is surely my favorites (I have read most of his works before), Let me quote one of the best lines from the book: "We all have our own style of eating which makes us unique". I think this is really inspirational. Many people struggle to lose weight, or simply feel good just because they are always looking for something to follow through 100%. The solution is simple: eat a reasonable clean diet and use diets (as long as they are not fads) as source of inspiration. Dexter, also dubbed: "The guy who can eat 3.000-5.000+ calories a day of clean healthy foods on as low as even \$30 a week budget" clearly has a mission- he wants to help people design a diet that is easy, healthy, tasty and works for them. This is much more than a recipe book. It helps you change and expand your mindset. Below are just a few reasons why I choose to give this book big shiny 5 stars that it deserves (and why you need to read it and apply it), again, only a few main reasons, as it's late, I am pretty hungry and I don't want to be on the internet till midnight. I want to try the recipes. 1. It's jargon-free + written in a simple way + full of humour and funny rants (not overdosed, just enough to keep you entertained) 2. Dexter is very passionate about what he does and after reading the book you will know WHY. 3. The recipes are pretty much vegan (not strict though, just enough) and full of common-sense super foods like quinoa and brown rice (good low-carbs). 4. The book is educational; you will get familiar with other diets, both real and fads. 5.
