Customer Reviews

This book has done the research for my for my father's family tree. Very informative and I am so happy to have been able to get a copy at such an affordable price for all the research that it had in it. Thank you to the researchers.

Because this book was published using OCR technology there are way too many errors in the copy from the original. Dates are wrong or missing; names are misspelled and missing on EVERY page. For a historian or genealogist, this book is not one to use for reference or family tree building.

Good history of my ancestors.
