Customer Reviews

The purpose of this "book" is to trick hasty people into buying this one instead of the real book. Even some of the reviews here are misleading and based on the real book. Do not buy this if you were looking for the actual novel by Graeme Simsion. However if you are looking for useless trivia, in the

form of 10 questions about the book, then go ahead and knock yourself out.

Silly easy questions about the book & then questions I didn't know the answers to about the author. I'm glad it was free with prime for me. I'd have been upset if I paid money for it.

WARNING: this is not the book, just a trivia about the book! I got mislead by the title and am very disappointed!

The reader engaged throughout the entire book. I would definitely recommend to anyone who is looking for something lighthearted, intelligent, and different from other books these days. I love this book! It is packed with full of tricks information. What a refreshing change from the usual books. This book provides tricks and trivia for a mind blown activity .

This is really a great book about the rosie project. The book is very well written and the plot is also very good. The books contains certain tips and tricks about the trivia which were very amazing. I highly recommend this book to all.

The only time I ever leave a bad review is when I consider a lack of ethics is involved. The title is written with deliberate attempt to deceive and it' - best reviews are from those who mistook this for the real book by Graeme Simsion.

I absolutely loved The Rosie Project! I love how Don starts his "Wife Project" from a unique perspective, that of an Aspergers Spectrum Disorder diagnosed man not concerned with looks but a criteria and leads to so much more. This love story is unlike any I've ever read and its hard to put into words the humor, the science (which I LOVED) and the sexiness that unfolds. A super treat and continued into Graeme's next book The Roseie Effect-I just bought and am so excited to read!!! Thank you Graeme!!!

The first few chapters are a challenge to get through, one must consider stopping at this point, but persevere and keep reading. There is more to this novel then you might think. Full of sadness and funny lines and endearments as the main characters search for clarity in their personal lives. Worth the struggle at the beginning.
