Customer Reviews

I am not really a gambler, I just got this to have some knowledge on sports betting. This is a no easy systems or gimmicks, it just hard work plus math. These formulas here absolutely will improve your earnings because they'll show you exactly how to choose from among the many ways of betting a game. Well-written!

There is nothing usefull in the note book

It's taken some handicappers 40 years of in depth study with trial and error to eek out a profit, but this book will tell you how to do it in 24 pages. DON'T BOTHER.

This book more or less describes the author's own version of martingale system. This book intorduces nothing special or new to intermediate bettors.
