The NFL Shadow Betting Strategy: How To Win Money Consistently Betting On Football

Synopsis

The annual NFL SuperContest (aka the Super Contest) is the biggest and most popular pro football picking contest of all time in which entrants pick 5 games per week and the winner gets close to a million dollars. Is there a way to make money from this contest without even entering? This book explores one such possibility. This book also answers questions such as: 1. Why can't you buy sports picks from experts like Billy Walters, arguably the most successful sports bettor of all time? 2. What are some home underdog strategies that would have worked in past seasons? 3. Why is the stadium surface type important? 4. What are some criteria for picking a good football betting strategy? 5. Why don't most handicapping services work? 6. How much could you make in just 2 NFL seasons if you could win 75% against the spread? 7. Is there an easy way to get great picks for free? Be a shadow and follow the strategy that is consistent, has great results, and is free.
