Customer Reviews

I have Fire HDX, Fire HD 8 and waiting on the \$50 Fire. I always learn something from these books. This one is no exception. I never get a new Fire without getting an updated tips book. I've read it all and already saw something new. Will have it open when the new one arrives. Thanks Edward.

When I first got my Fire set up I knew I needed a guide that I could refer to anytime I found myself needing some guidance. I spent a decent amount of time looking through the available books and am happy to say I decided on this one. Although the Fire is fairly intuitive I still find myself referring to the book and find it easy to browse through in order to pick up tips and answer any questions I may have.

Like all informative tech. Books it took a minute to engage, after a few minutes I came too realize this book is not at all typical it's engaging, informative in a easy to understand way. I'm glad I

bought it. I give it three stars.

There are just things that you need. This is one of them. By using Amazon Prime I get more choices, a better selection, and don't have to run around wasting time and more money

Any book that helps me get more out of my Fire is welcomed and I have bought several. They each have good info in them. To be honest I bought my Fire to be a big MP3 player and do not waste space on apps I have no interest in.

a nice publication that addresses most of the features of the Kindle Fire 2015 edition in a general way, but I was hoping it would offer a little more in depth addressing more "how to" do things. Overall a nice brief look into the new Fire for a very affordable price, seems to target a novice audience.

This book is the answer to a user guide for kindle beginners. I will be saving this to refer to as I get to know my new device! Thanks to Mr. Jones for such a thorough job of making sense out of the computer that's called Kindle

I found that most of the info was very productive. Some was not all that easy to follow. Going from written to actual performance did not always work. Again I'm getting older and not as focused. Overall I'll have it if needed.
