Going To Hell In A Hen Basket: An Illustrated Dictionary Of Modern Malapropisms

Synopsis

Malapropism - A word or phrase that has been mistaken for another, usually because of its sound rather than its meaning. Everyone has made the mistake of using a word or phrase that they think sounds correct, but in fact is not. Malapropisms make some sense. They have a semantic logic to them, even if that logic makes perfect nonsense. In *Going to Hell in a Hen Basket*, author Robert Alden Rubin delights in the creative misuse of words and celebrates the verbal and textual flubs that ignore the conventions of proper English. Culled from blogs, the deepest corners of the internet, as well as some of the most esteemed publications, here is a collection of classic malapropisms paired with hilarious illustrations. Some examples include:Â adieu, without further - Conflation of bidding adieu (saying goodbye) with ado (complicated doings, ceremony) to mean "without saying anything more."Â feeble position - An unborn child in a fetal position seems weak and helpless, which explains the confusion here. The two words also share some sexist cultural and literary associations. Feeble (weak) originates from a Latin word for something to be wept over; fetal (relating to a fetus) originates from the same preliterate Indo-European word that gives us female.Â hone in on - Confuses expressions such as finely honed with home in on or zero in on (focus on, locate) and sometimes with horn in on (intrude upon). Homing, as pigeons perform it, often involves flying in narrowing circles until the target is reached. Hone means to sharpen; the malapropism conveys the sense of a carefully sharpened instrument and sometimes cutting in. Perfect for bookworms and wordsmiths, the point here isn't to shame the malapropagandists, but to delight in the twists and turns writers put our language through and to amuse and inform those of us who care about words.

Book Information

Hardcover: 224 pages

Publisher: Flatiron Books; Ill edition (August 4, 2015)

Language: English

Customer Reviews

Robert is a gifted writer. It is great fun to read this book aloud so you can hear as well as see the wordplay. In particular, I enjoyed the clever sketches Robert includes which feature the ever present and quite amusing chicken. I can't recommend this book highly enough. You will love it.

For those fans of the vernacular, this book is a hoot. Malapropisms, beware! Robert Rubin is your biggest fan, and he's cataloguing you for the amusement of others. Highly entertaining for those of us that love the language, and all its twists and turns. Whilst some are groan-worthy, many provide a good laugh. If you can giggle at Cadillac Converters, then this is the book for you. Gift-worthy, too, for the man or woman who has everything--including the gift of gab!

Fantastic book, extremely interesting. The author took a lot of time and care in compiling this fascinating and amusing work. I'm going to give several as gifts, as well.

Fun book if you love language!
