Interesting book. The author is so right by saying that we tend to like people who are funny. This book is not about being a stand up comedian. (though some of it could apply) No it is more about adding humour to our everyday conversations and communication. #1 rule in being funny is to always make fun of yourself. Humour makes a person more approachable. He talked about finding your brand of humour and being yourself in it. Know your audience and what will make them laugh. The guy is kinda funny at times in this book. Like with his advice on idiotic saying to blurt out. I laughed myself at the thought of that. Interesting that he said even wearing brighter colored cloths can help you come off funnier than dark dull cloths. He encourages us to listen to a lot of funny stuff to get inspired to be funnier. He says that most of our humour comes from surprise, expectation, observation and misdirection. Most critical parts of comedy according to this author is timing and the length of your routine. He gives some types of activities to participate in to become funnier. I liked many things he said. Heres one: if your attempt of humour doesn't work then turn it around and make fun of yourself.

For one, this book is only like ten pages long. That's like a dollar a page.... It only really says stuff that everyone already knows: Don't tell offensive jokes unless you know your audience, you have to have confidence, your timing needs to be right. The only really enlightening thing in this book is that humor comes from surprise, from circumventing peoples expectations. Once again, everyone knows this, but if you didn't, there. I just saved you some money. That's the only take away from this book. Say random things arbitrarily that don't make sense. -_-

Some people think that being funny is a natural talent, but you can learn to be funny just as the same. This book taught me how to be funny and interesting around people. I have never been very good with people and have a lot of social anxiety so I thought I'd give this book a shot. It's funny, informative, and wise.
